

JUAN LUIS PEREZ

FULL STACK DEVELOPER · JAVASCRIPT · PHP · REACT · LARAVEL · NODE.JS

juanluisperezc1996@gmail.com · +54 9 11 7621 1508 · github.com/Juanperezc · linkedin.com/in/juan-perez-c

Self-driven full-stack web developer with 10+ years involved in the whole software development life cycle, providing IT solutions for private and public organizations using JavaScript, PHP, React, Laravel and Node.js. Aiming to contribute to building world-class software solutions along with highly performant and dynamic teams. Very interested in GraphQL, Machine Learning, AWS and Kubernetes.

EXPERIENCE

Web Developer · DevBase

May 2022 – Present · Full-Time · Remote · Remote

- Migrated key components to Next.js, led the redesign and implementation of three core React modules, and integrated third-party services. I also contributed to regular code reviews and refactoring to improve maintainability.
 - 30% faster SSR · 20% higher engagement · 20% less technical debt
- Next.js · React · MySQL · Redis

Mobile and Full Stack Developer · PLAYMIX

2024 – 2025 · Freelance · Remote · Argentina / Remote

- Spent six months on the padel booking app: real-time court reservation flows, skill- and location-based matchmaking, online payments with Stripe and MercadoPago, and ratings and missions systems.
 - iOS and Android apps · multi-currency payments · live in 9+ countries
- Flutter · Node.js · Stripe · MercadoPago · WebSocket

Full Stack Developer · WoowUp

2024 · Freelance · Remote · Argentina / Remote

- Worked three months on the omnichannel retail CRM: features on top of the Customer Data Platform, multichannel campaign automation, e-commerce integrations and online/offline impact reporting.
 - CRM used by 300+ brands · 4.8 on Capterra
- React · PHP · REST APIs · Marketing Automation

Web Developer · NexoAbogados.cl / Variacode

December 2019 – 2022 · Full-Time · Remote · Chile / Remote

- Implemented Gmail authentication with JWT, optimized critical services, and restructured the application to improve code quality and maintainability while introducing AWS architectures.
 - 25% more access · 40% faster service response
- Node.js · Laravel · React · Next.js · MySQL · Redis · AWS

Tech Lead and DevOps · Womenly

February 2021 – March 2022 · Part-Time · Remote · Remote

- Redesigned infrastructure using Elastic Beanstalk, Route 53 and EC2. Reorganized the project structure and implemented CI/CD pipelines for faster and more reliable deployments.
 - Faster deployments through CI/CD and AWS architecture
- Laravel · Next.js · AWS · GitLab · Redis · CI/CD

Full Stack Developer · Conexa · Globo / Telepizza / Delosi

October 2019 – December 2019 · Contract · Remote

- Built REST APIs, refactored business logic in legacy systems and handled production incidents. For Delosi, applied code splitting to reduce bundle size and improve page load time.
 - Supported 10K+ daily users and 500K+ registered users · load time reduced to 1.5 s
- REST APIs · JavaScript · Legacy Systems · Code Splitting

Web Developer · EnvíameLo

July 2019 – October 2019 · Contract · Argentina / Remote

- Implemented new features and API integrations, including reCAPTCHA, and contributed to design and development decisions for the logistics platform.
 - New security workflows and e-commerce integrations
- Node.js · Angular 7 · MySQL · Laravel · Vue.js

Mobile and Backend Developer · Zaga System · SmartMarket / ZagaTaxi / ZagaSport

December 2018 – July 2019 · Full-Time · Venezuela

- Shipped SmartMarket on iOS, improved automatic service assignment for ZagaTaxi and resolved WebSocket concurrency issues in ZagaSport.
 - iOS app shipped in one week · 40% faster taxi response · 50% better performance
- Laravel · Node.js · WebSocket · Push Notifications · MySQL

Frontend Developer · ARKITECK

July 2018 – November 2018 · Full-Time · Venezuela

- Developed a reusable application library that improved the shared foundation across features and significantly reduced application startup time.
 - 40% lower application startup time
- Laravel · Angular · Ionic · TypeScript · Node.js · PostgreSQL

Web Developer · Markdebrand

November 2016 – June 2017 · Full-Time · Venezuela

- Developed and maintained corporate websites and content-managed solutions built with WordPress and MySQL.
- WordPress · PHP · MySQL

WordPress Developer · Hygge5

July 2016 – March 2017 · Contract · Venezuela

- Built, customized and maintained WordPress websites, themes and manageable content for multiple clients.
- WordPress · PHP · MySQL

PROJECTS

BTC Trade Company · Freelance · July 2016

- Worked with another backend developer on a bot/tool for cryptocurrency buy and sell operations. Stack: Laravel, Vue, Binance.
